The Church Social.

Quite a large audience attended the entertainment and church social given by the ladies of the First Methodist Church, at the Opera House last night. A well selected program was rendered and those who availed themselves were highly pleased with the evening's entertainment.

The music rendered by Prof. Schmid's orchestra was enjoyed by all.

The comic negro recitation by Miss Cloyd Thomas was heartily enjoyed.

The singing of the two little Patton sisters was of the very best. The two little ones possess very sweet voices.

The piano duet rendered by Misses Jennie and Bertha Hess was the best that has been heard in Bisbee for some time. Both young ladies show the result of hard, systematic practice and study. By their execution of difficult movements, it was clearly shown that both young ladies are thorough masters of the piano.

The vocal solo by Miss Nellie Hughes, "The song that reached my heart," was beautifully rendered and called forth applause. For an encore she sang "Sweet Nellie May."

The rendition of the favorite song, "Afterwards" by Miss Jennie Hess, was tremendously applauded by an appreciative audience. For an encore Miss Hess sang a little negro ditty, "Come kiss your baby."

The march by 24 young ladies, under the direction of Mrs. L. D. Hunt, was very pretty. The movements were very graceful and perfect time was kept with the music. The audience heartily responded with continued applause.

The stereopticon views, some of which were loaned for the occasion by Fly, the Photographer, were the best ever shown in Bisbee.

After the close of the entertainment ice cream and cake were served by the ladies of the church.

The program rendered was as follows:

A Frightful Blunder

"Will often cause a horrible Burn, Scald, Cut or Bruise. Bucklen's Arnica Salve, the best in the world, will kill the pain and promptly heal it. Cures Old Sores, Fever Sores, Ulcers, Boils, Felons, Corns, all Skin Eruptions. Best Pile cure on earth. Only 25 cts. a box. Cure guaranteed. Sold by the Bisbee Drug Store and Copper Queen Co.

In Connecticut the street railway company involved is trying to settle with the relatives of the dead victims of the Stratford bridge accident for nominal damages of \$100 on the supposition of a painless death. This is according to a decision recently given by a Hartford judge, that under the law and precedents there can be no claim for full damages of \$5,000 for loss of life in such cases unless it can be shown that the victim died in pain and lingeringly.

"Our baby was sick for a month with severe cough and catarrhal fever. Although we tried many remedies she kept getting worse until we used One Minute Cough Cure—it relieved at once and cured her in a few days."—B. L. Nance, Prim. High School, Bufile, Texas. Copper Queen store.

Marshall Field appears to be the richest man in Chicago. The newspapers there say that the board of tax assessors' review had information which leads them to believe his annual income is not far from \$3,000,000. That is 5 per cent on \$60,000,000.

Contract labor continues to pour into Hawaii from Japan at the rate of about 1500 men a month—the latest reports from the islands have it.

This morning Stephen Miller called at the Orb office and stated that yesterday Mrs. Miller had, upon a visit to the cemetery to look after the graves of members of her family who are there buried, found a horse grazing within the cemetery grounds, and that the grasses and plants that had been placed by loving hands above the resting places of the silent ones, had been injured and in some instances destroyed, presumably by the animal she saw there, which it was subsequently learned is the property of the man who is employed by the cemetery committee as caretaker for the cemetery grounds. The caretaker states that his horse was thoughtlessly allowed to be loose within the grounds while he, the caretaker, was employed in digging a grave. He having ridden down from his work in town to dig the grave. However, he was of the impression that it was not his horse that caused the damage complained of, since in some places the cemetery fence is in such poor condition that roving stock have more than once recently broken into the grounds. It is by no means probable that such a condition of affairs will be permitted to continue after the attention of the cemetery committee has been called to the matter. The committee is composed of Y. R. Stiles, chairman, Emil Marks, A. W. Sower, Michael Cunningham, John Bowen, J. B. Anglin. The Orn is aware that the cemetery association has been hampered by want of funds. If such be the case now, our citizens will surely cheerfully respond to a call upon them for sufficient funds to protect properly "our city of the dead."

Miss Yapple Not Dead.

The Orn of yesterday stated that a telegram had been received here announcing the death at Tombstone of Miss Nellie Yapple. The information upon which the item was based came to the Orn very directly and from a thoroughly reliable source. However, we are very pleased to now be able to state authoritatively that the statement was totally an error. By direct advices today from Tombstone we learn that Miss Yapple is not even ill.

COPPER IS THE METAL.

The Cochise Copper Mining Company, Bisbee, Arizona.

This company owns a very valuable group of mines situated in Warren Mining district, county of Cochise, Arizona, lying immediately east of and adjoining the town of Bisbee, and adjoining the property of the Copper Queen Consolidated Mining company on the north. The latter company has been in operation for about twenty years, and employs about 1,500 men daily in the operation of its mammoth mine and smelters, and as a result has produced copper to over 34,000,000 pounds during the year 1898, and the net proceeds of such production are reported to have been over \$2,000,000, and it has been said by experienced miners who have been under its employ for years, that the Queen mine now has sufficient ore in sight to keep it in constant operation for the next twenty years without further development.

Is it not reasonable to believe that the property of the Cochise company is fully as valuable, when it is within such close proximity to such a wonderful mine?

The blast set off in the underground workings of the Queen property can easily be felt and heard at the shaft of our mine, and oftentimes the concussion has attracted marked attention.

The original owners of these valuable mines are local business men, well and favorably known in Bisbee and surrounding vicinity, who are doing their utmost to make this enterprise a success in every respect. The board of directors are original owners, and are donating their services to the company until such time as the mine will pay dividends. They own the controlling interest in this property, and as a protection to stockholders have placed their entire interest in escrow for a term of one year.

The stock books of our company are now open for subscriptions, and a limited number of shares are offered at ten cents per share. No application for less than 100 shares will be accepted.

The company reserve the right at any time to advance the price of shares without further notice, or to reject any application for stock at their discretion.

Every cent received from the sale of stock will be expended toward the development of our property and the erection of hoisting works, and all other necessary improvements, and to make our enterprise a success in every particular.

We invite investigators and their experts or their engineers to closely scrutinize our property.

Applications for shares may be made to any of the directors of the company, or to any of our legally authorized representatives.
